SD-SMP Unique Technology

Dotting Method: A technique using fine, light-toned dots layered with gradually intensified, crisp dots to create a multidimensional, natural-looking density.

Soft-Hairline Powder Effect: A hairline restoration technique that mimics the delicate, fragmented hair growth pattern of female hairlines for a ultra-natural, feathered finish.

+ V6 needle cartridge 1R/0.3-LT x10 +
3RL/0.25-LT x10 + 7F/0.3-ST x10

4 Operation Modes

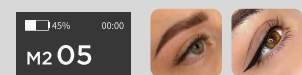

Low saturation & high saturation techniques are easy to handle, meeting all semi-permanent makeup needs for eyebrows, eyes, lips, full face makeup, scalp tattooing, tattooing, and skin tone restoration!

M1 Low-Frequency Constant Mode

Good atomization, on the delicate side. Color is applied with throw sweeping techniques for beginning.

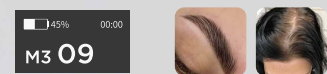

Recommended Gear Level:
eyebrow 5-8/10-14 gears,
eyeliner 4-6/7-9 gears,
eyebrow 6-9/9-12 gears.

M2 Speed Boost Mode

Fast coloring with simple techniques—Just flick, sweep, dot, and stop for instant saturation.

Recommended Gear Level:
eyebrow 3-5/5-8 gears,
eyeliner 2-4/4-6 gears.

M3 Percussive Tap Mode

Needle dotting for rapid, automated pigment delivery for fast coloring.

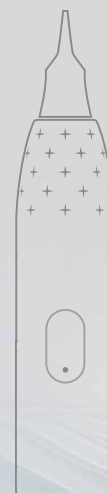

Recommended Gear Level:
eyebrow 6-9/9-12 gears,
SMP 5-9/8-12 gears.

M4 High-Frequency Efficiency Mode

Fast Pigmentation, Even Color Retention, solving the pain points: time-consuming operation & excessive skin trauma —delivering superior efficiency and outcomes.

Gear Recommendation:
eyebrow 1-6/8-12 gear,
lip 3-5/12-14 gear,
eyeliner 2-5/7-9 gear.

Permanent Makeup Pigment

20-50nm ultra-fine pigment particles deliver hair stroke-level biomimetic pigmentation, ensuring minimal scabbing.
